Everything has been done to ensure the accuracy of this information, however Grain SA takes no responsibility for any losses or damage incurred due to the usage of this information.

Hierdie is 'n voorstelling van die winsgewendheidsituasie van verskillende graangewasse met die inagneming van insetkoste (soos kunsmis- en brandstofpryse) soos beskikbaar of bereken tydens Januarie 2024 vir die 2023/2024-produksieseisoen.

This is an indication of profitability for different grains when input costs (eg. fertiliser and fuel prices) are taken into account as they become available for January 2024 for the 2023/2024 production season.
